

VACANCY

ENGINEERING APPRENTICE

APPLY TODAY

jobs@radnorhills.co.uk

Are you passionate about how things work? Do you enjoy problem solving and want to build a career in Engineering? We are looking for an enthusiastic and motivated Engineering Apprentice to join our team at Radnor Hills, a leading manufacturer of soft drinks.

ABOUT THE ROLE

- Work alongside experienced Engineers, gaining hands on experience with state-of-the-art machinery and equipment.
- Learn how to maintain, repair and improve the efficiency of our production lines.
- Develop skills in electrical, mechanical and fabrication disciplines.
- Study towards a nationally recognised Level 3 Engineering qualification through structured learning.

ABOUT YOU

- A genuine interest in engineering and how things work.
- Good problem-solving skills and a willingness to learn.
- A team player with a positive attitude and strong work ethic.
- GCSE's in Maths, English and Science at grade 5 or above.

WHAT WE OFFER

- Full training and mentoring.
- Day release to college to gain your qualification.
- A structured development plan with clear career progression.
- Competitive apprentice salary.

SOUND GOOD?

- Apply today by sending your CV and a covering letter to jobs@radnorhills.co.uk.

This is an excellent opportunity to gain practical skills, recognised qualifications, and start a long-term career in engineering at a business that values innovation and personal growth.
